

## QADDAFI ON FACEBOOK

Posted by *Drew Dernavich*

Speaking of Facebook, we've obtained the log of Libyan leader Muammar Qaddafi, who was in town Wednesday to give a speech at the United Nations. It turns out that he's a pretty wired kind of guy. Here are his Facebook status updates for Wednesday, September 23th:

6:12 A.M. Waking up to beautiful sunrise in... where am I? America? Oops, it's a stinking filthy sunrise.

6:32 A.M. Got to give speech today. Am browsing Internet, looking for lovely people to picture in their underwear.

6:50 A.M. Is it Qaddafi or Ghadafi? Hard to Google self when your name can be spelled so many ways! LOL

7:01 A.M. Why won't anybody else play the "2,500 Things You Should Know About Me" game?

7:30 A.M. Off to U.N. Thought of fun ice-breaker: "Everybody state your first name, and then your favorite demon that begins with that name!" Can you imagine? "Hi, I'm Barack Beelzebub." It'll go over everybody's head.

7:32 A.M. Just kidding. The American President is my good, good friend who will live forever. Must have jet lag.

9:15 A.M. Taxi chariots have changed since I was last in New York. Note to self: install credit-card machines on camels back home.

10:30 A.M. Boo-yaa! Killing it at the U.N.

11:01 A.M. My interpreter collapsed. WTF? This better not happen when I host the Oscars.

11:13 A.M. Am showing the General Assembly video I spliced together which clearly shows George W. Bush shooting John F. Kennedy. Western world, when will you lift veil of darkness from your eyes?

11:42 A.M. Confused: Which is the U.N. Charter and which is the lyrics to "American Pie?" Hard for me to translate your Satanese.

2:45 P.M. Nukes, shmukes. America, stop threatening the world with your crazy OctoMom.

4:20 P.M. Why not relocate U.N. to Libya? Better yet—why not relocate to Lady GaGa's apartment? Speaking of... can anybody tell me why she hasn't friended me?

6:33 P.M. Uploaded my speech to QTube.

6:50 P.M. Ready to turn in. Changed into Snuggie and looking for newest episode of "Dallas."

6:53 P.M. NO "DALLAS"? Already making talking points for next General Assembly.
